

FIVE REASONS TO HIRE AN EMPLOYMENT LAWYER

EMPLOYMENT LAW IS TRICKY

Employment law is very complicated. There are unique procedural steps that employees must follow before they can bring certain employment-law claims. Failing to follow these steps can mean you lose your right to bring the claim, forever.

THE CLOCK IS TICKING

There are strict time limits for bringing employment-law claims. The length of time employees have to bring a particular claim can vary widely, and failing to move quickly enough will forever bar an employee from asserting the claim.

THE COMPANY HAS ONE

Companies often hire big law firms to advise them on how to avoid liability. The company's lawyers are looking out for the company, not you. You need someone in your corner too—someone who can go toe-to-toe with the big-firm lawyers.

TO FIND THE EVIDENCE

Evidence in employment discrimination cases can be difficult to find. Employees and even inexperienced attorneys might not know where to look. You need an attorney who knows where evidence of discrimination “hides,” and how to get it.

YOUR LIVELIHOOD IS AT STAKE

When your job is in jeopardy, so is your family's financial future. Although the process is not always quick, hiring an employment lawyer can be the first step on the path back to financial security.
